GENERAL DRYING

5/12/2008

SN 84837

PROJECT: Drying Cabinet, General Purpose

THE CHALLENGE:

Drying of virtually anything that fits in the cabinet dimensions.

A general purpose drying cabinet for virtually anything you can imagine. Simple electric convection heat wafts through the drying cabinet to surround the items contained therein. Control monitors humidity and temperature

inside the chamber. Optional glass door allows operator to visually observe the drying cycle. Ships fully assembled.

PRICE RANGE: \$8,000 - \$10,000

Price varies greatly depending on type of conveyor and other selected options.

SYSTEM DIMENSIONS:

48" W x 48" D x 74" H

POWER REQUIREMENT:

230V 1Ph 60Hz

HEAT SOURCE:

Electric Convection

RECIRCULATING BLOWER:

Fractional Horsepower Blower

EXHAUST: Minimal

PROCESS TEMP: 140°F

PROCESS TIME: Varies

RESULTS: Improved product quality and faster drying time.
